

Step 1: We Calculate the Price of 1 Kg for each item.

Weights	Prices	Prices For 1 Kg
2 kg	4 Rs	2 Rs
3 kg	5 Rs	1.6 Rs
1 kg	3 Rs	3 Rs
4 kg	7 Rs	1.7 Rs

Step 2: We will Pick the Highest Price in the table and check if the weights are equal to the given Basket Value.

Weights	Prices	Prices For 1 Kg
2 kg	4 Rs	2 Rs
3 kg	5 Rs	1.6 Rs
1 kg	3 Rs	3 Rs
4 kg	7 Rs	1.7 Rs

So we Consider the Total Basket Weight to be

5 kg

Total Quantity = 5 kg - 1 Kg = 4 Kg

Total price = 5 kg * 3 ₹ = 15 ₹
